

# Stage 1 Digital Image: Semester 2 Overview

**Teacher: Elyssa Kreher**

This semester Year 11 Photography students will design and create products that meet a design brief, and develop the knowledge and skills associated with using different processes and production techniques. They combine their designing and creating skills with knowledge and understanding of materials, information, and equipment to make high-quality products for intended purposes. They analyse the impact of technological practices and products, on individuals, society, and/or the environment now, and develop insights into the uses of technology in future contexts.

Students investigate and analyse a range of products and use the information gained to create original solutions. They use appropriate technical language and graphic, written, and oral techniques that incorporate information and communication technologies to create and communicate design proposals.

Weeks	Theme	Assessment
1-4	<p>Introduction to Photoshop Software.</p> <ul style="list-style-type: none"><li>• layers – blend modes</li><li>• tone drop</li><li>• sepia tone</li><li>• vignette</li><li>• text</li><li>• pattern</li><li>• filters</li></ul>	<p>Skills and application: Materials Application</p> <p>Task 1</p>
5-7	<p>Image Manipulation Techniques.</p> <ul style="list-style-type: none"><li>• Correcting a poorly exposed / colour toned / lighting or other faults eg dust, noise, scratches</li><li>• Removal of an object or people from the image</li><li>• Composite image</li></ul>	<p>Skills and application: Processes and Techniques</p> <p>Task 2</p>
8-14	<ul style="list-style-type: none"><li>• Development of a design brief.</li><li>• Detailed analysis of product, using appropriate terminology.</li></ul>	<p>Folio</p> <p>Task 3</p>
14-18	<ul style="list-style-type: none"><li>• Final Product and Analysis</li></ul>	<p>Product Evaluation</p> <p>Task 4</p>
